Thynk's Eligible Budget Sources

District Funding Pathways for Thynk

Thynk is designed to align with a wide range of funding sources, enabling schools and districts to access the resources needed to implement and sustain effective educational solutions. Below is a breakdown of potential funding streams and how Thynk meets the necessary qualifications.

Funding Source	Description	How Thynk Qualifies
IDEA (Part B) - SPED Funding	Individuals with Disabilities Education Act	Thynk aids in IEP & 504 interventions. Thynk can be used as a benchmark objective on both 504 and IEP plans. As well as providing measurable improvements in key focus areas and key performance areas for IEPs.
Title I (Part A)	Improving Academic Achievement of the Disadvantaged	Thynk provides targeted interventions and personalized learning pathways to improve academic outcomes for disadvantaged students.
Title II (Part A)	Supporting Effective Instruction	Thynk enhances teacher effectiveness through professional development resources, data-driven insights, and collaborative planning tools.
Title III (ELL/LEP)	Language Instruction for English Learners	Thynk supports English Language Learners (ELLs) with adaptive learning paths.
Title IV (Part A)	Safe and Healthy Students and Effective Use of Technology	Thynk promotes social emotional learning (SEL), as well as personalized learning and innovative tech integration.

Funding Source	Description	How Thynk Qualifies
State Mental Health & Wellness Grants	Funding to support student mental health initiatives	Thynk provides resources, mindfulness activities, and tools that support positive mental health, student engagement, and educator well-being.
State Instructional Technology Grants	Funding for technology integration in classrooms	Thynk offers an innovative platform designed to enhance teaching and learning through interactive tools, data analytics, and personalized learning paths.
Section 504 Accommodations	Ensuring equal access for students with disabilities	Thynk facilitates the implementation of 504 plans with accessible content, assistive technology integrations, and progress monitoring tools.
Local District Technology Budgets	Dedicated funds for technology adoption	Thynk integrates seamlessly with existing school infrastructure and offers a cost-effective solution for enhancing digital learning environments.
Professional Development Budgets	Funds allocated for teacher training and growth	Thynk provides comprehensive professional development resources, training modules, and ongoing support to ensure effective platform implementation.
Capital Funding (State/County)	Funding for infrastructure and technology upgrades	Thynk is a scalable solution that aligns with long-term technology investment plans, offering sustainable improvements to educational outcomes.
MTSS/RTI Tiered Intervention Funds	Funds dedicated to Multi-Tiered Systems of Support and Response to Intervention	Thynk facilitates targeted interventions, progress monitoring, and data-driven decision-making within an MTSS framework to support struggling learners.
